

## average residential ESS price per 800kW in Bahamas

How much does electricity cost in the Bahamas? In fact, The Bahamas has one of the highest electricity rates in the Caribbean, with an average cost of around \$0.36 per kilowatt-hour (kWh) in . This is significantly higher than the regional average of \$0.25 per kWh and has placed a considerable burden on both households and businesses. Why is the Bahamas struggling to diversify its energy mix? One of the key challenges facing The Bahamas in its quest to diversify its energy mix is the high cost of electricity, which is primarily driven by the country's reliance on imported oil for power generation. How can the Bahamas accelerate its energy transition? By actively participating in these initiatives and learning from the experiences of its regional neighbors, The Bahamas can accelerate its own energy transition and reap the benefits of a cleaner, more affordable, and more secure energy future. SOURCE: The residential electricity price in the Bahamas is BSD 0.281 per kWh or USD 0.281. The electricity price for businesses is BSD 0.354 kWh or USD 0.354. These retail prices were collected in December and include the cost of power, distribution and transmission, and all taxes and The residential electricity price in the Bahamas is BSD 0.281 per kWh or USD 0.281. The electricity price for businesses is BSD 0.354 kWh or USD 0.354. These retail prices were collected in December and include the cost of power, distribution and transmission, and all taxes and fees. Compare Residential Rates: From 0 to 800 units, charges vary to encourage low energy consumption. Commercial Rates: Includes specific rates for businesses and public services like churches and sports arenas. General Service: Rates for services requiring high energy demand. Download the Tariff Card File Power Rates Find the rates for power that applies to you. Our 19,500+ customers belong to customer groups, which include residential, commercial and industrial. Use the information below to find the rates that apply to you. Consumption for private residence for domestic or household use Tariff Survey for December . This survey is conducted a ncing its value to our members and other stakeholders of the Caribbean electric utility industry. CARILEC members are invited to send feedback an espond to the questionnaire in a timely manner to facilitate the timely completion of the The tariffs present are representative of the electricity rate for Grand Bahama Power Company. 9. In 2022the monthly fuel charge increased in five phases. For each phase there was an increase on \$0.02 per kWh up to 800 kWh and a \$0.04 increase per kWh for usage over 800kWh. 10. Churches and However, the first 800 units (kWh) consumed will be billed at 2.5 cents less than the calculated average. Above 800 (kWh) will be calculated at 1.5 cents above the average. Example: If the average is 20 cents per unit (kWh), then the customer will be 17.5 cents per kWh for the first 800 units New Tariff Rates Information - ERA - Bahamas Power and Light Here, you can view the specific rates that apply to various customer classes such as residential, commercial, and general services. This includes the basic rate, fuel charges, and applicable VAT. Caribbean Electric Utility Services Corporation (CARILEC)Figure 1: Residential Customers - Typical Bills and Disaggregated
