All our systems are quality products designed with an aim. The Central Electricity Board (CEB), under the Ministry of Energy and Public Utilities of Mauritius, has made significant strides in scaling up the deployment of solar (photovoltaics) PV systems under the Home Solar Project (HSP) scheme. The initiative is made possible through concessional funding. The cost of solar panel installation in Mauritius depends on several factors such as system size, type of panels, inverter quality, and installation company. On average: MUR 180,000 to 350,000 (approx. USD 4,000 - 8,000). Suitable for small to medium homes. MUR 350,000 to 700,000 (approx. USD 8,000). Return on Investment (ROI): Initial cost of purchasing and installing solar panels kept falling and falling resulting in a good ROI. Depending on factors like your location, energy usage, and incentives, solar panels can pay for themselves in a relatively short time through energy savings. As such, concessional funders Abu Dhabi Fund for Development (ADFD) and the International Renewable Energy Agency (IRENA) approved the CEB's proposal to install 10,000 rooftop solar PV systems across Mauritius. This initiative aligns with the country's commitment to reduce fossil fuel dependence.
