

factory solar storage project financing options in Azerbaijan 2025

What's going on with Azerbaijan's new floating solar power plant? The third announced project is a 100 MW floating solar power plant with a 30 MWh battery storage system to be located on Lake Boyukshor, close to Azerbaijan's capital Baku. The agreement is in place between the ministry, Socar Green and China Datang Overseas Investment Co. Ltd, which is set to be the main investor. How will Chinese solar projects work in Azerbaijan? They will be implemented by Chinese companies working in collaboration with Azerbaijan-based developers. Azerbaijan's Ministry of Energy has signed three investment agreements for three separate solar projects involving cooperation from Chinese companies. How much solar power does Azerbaijan have? Azerbaijan's cumulative solar capacity stood at 293 MW by the end of , according to figures from the International Renewable Energy Agency (IRENA). Work on a 240 MW project in southwestern Azerbaijan began last November, the same month funding was secured for two solar projects in the southeast of the country that will total 760 MW. The European Bank for Reconstruction and Development (EBRD), the Asian Development Bank (ADB), and the Asian Infrastructure and Investment Bank (AIIB) are providing financing for the projects. The total cost of the projects is estimated to exceed \$600 million.
