How to capture public procurements on all levels in Norway? To capture procurements on all levels in Norway, a functional and integrated e-procurement system, capable of collecting information also about the below the thresholds procedures in an automated way, should be available on a central level. The challenge at hand is to gather and present information about public procurement in a coherent way. Who is responsible for public procurement in Norway? The Ministry for Trade, Industry and Fisheries is in charge of public procurement policy. The Norwegian Agency for Public Management and eGovernment (Difi) supports the implementation of the public procurement rules and provides guidance with regards to public procurement (see indicator 5b for a detailed list of allocation of competencies.) In this practice guide, unless otherwise specified, we will focus on the Procurement Regulation ("classic sector") and its Part III. This is the regulation mostly applied in Norway and Part III covers the procurements of contracts above the EU/EEA threshold value. In this practice guide, unless otherwise specified, we will focus on the Procurement Regulation ("classic sector") and its Part III. This is the regulation mostly applied in Norway and Part III covers the procurements of contracts above the EU/EEA threshold value. Substantial parts of the Public Procurement Act and the regulations are based on EU/EEA directives and aim to ensure fair competition and transparency in the procurement process. The different regulations share many common features and are based on the same principles, but they also have some Welcome to the portal for Norway!
