

household energy storage project financing options in Malaysia 2025

How do we support Malaysia's Energy Transition? We support Malaysia's energy transition by financing initiatives in renewable energy, green technology, carbon capture, energy efficiency, green hydrogen, electric mobility, and transition financing. Through our financing solutions, we contribute to the National Energy Transition Roadmap (NETR) and the country's shift towards sustainable energy.

Will Sabah be the largest battery storage facility in Southeast Asia? Upon completion, the facility will be one of the largest battery storage systems in Southeast Asia and the first energy storage facility in Sabah, with a final installed capacity of 517 MWh.

Does Bank Pembangunan offer financing? The final rate for the approved financing is subject to Bank Pembangunan's discretion. Bank Pembangunan offers financing starting at RM20 million. If your financing needs are below this amount, you may consider alternative options available here. To learn more about import and export financing, click here.

KUALA LUMPUR: Malaysia Debt Ventures Bhd (MDV) is targeting RM300 million in approved financing for energy transition projects under the National Energy Transition Facility (NETF) by .
