

## successful bid price of hybrid solar storage project in Cyprus 2025

The Mediterranean island country's Ministry of Energy, Commerce and Industry announced last week (14 November) that the government Council of Ministers had approved the EUR35 million (US\$36.89 million) scheme that day. The Scheme includes calls for proposals for EU grants targeting hybrid energy systems (combining renewable energy and storage installations) under the Just Transition Mechanism (JTM), Pillar I Just Transition Fund (JTF). The regulatory framework for this EU Funding Programme is set out in Cyprus' Ministry of Energy, Commerce and Industry has launched a subsidy scheme for energy storage systems that can be added alongside existing renewable energy plants. Eligible renewable power plants should be remunerated either by feed-in tariffs (FiTs) or net billing systems. Cyprus has The government of Cyprus has confirmed financial support will be made available for renewable energy projects paired with energy storage. The Mediterranean island country's Ministry of Energy, Commerce and Industry announced last week (14 November) that the government Council of Ministers had Cypriot citizens and legal persons owning renewable energy systems can apply from February 14 for grants to add batteries. The EUR 35 million program is funded from the European Union's Just Transition Fund. The Council of Ministers of Cyprus approved the Grant Scheme for Energy Storage Systems in New grant plan to fund energy storage systems linked with renewable energy, applications open January . The Council of Ministers has approved a new EUR35 million Energy Storage Grant Scheme to support energy storage systems connected to renewable energy projects, announced Minister of Energy Cyprus has announced plans this week for the integration of its energy storage systems (ESS) with renewable energy sources. This comes after reaching a funding agreement with the EU of 40 million euros. The development will be achieved as the government deploys a centralised energy storage system AID SCHEME FOR INSTALLATION OF ENERGY Therefore, the payment will cover the difference between the successful bid price and the average market selling price, but not higher than the cap price (maximum selling price). Cyprus introduces energy storage subsidy schemeCyprus' Ministry of Energy, Commerce and Industry has launched a subsidy scheme for energy storage systems that can be added alongside existing renewable energy plants. Eligible renewable power plants Cyprus confirms EUR35 million 'investment MECI said at least EUR40 million would be available for centralised energy storage system (ESS) projects. The framework also launched a consultation into how best to direct the scheme to support "hybrid" renewable Cyprus launches grant mechanism for energy storageWind and solar power systems with FiTs between EUR 166 per MWh and EUR 250 per MWh can get up to EUR 50,000 per MWh of storage capacity and EUR 100,000 per Cyprus Approves EUR35M Energy Storage Grant Scheme for Cyprus' EUR35M grant scheme for energy storage in renewable projects will open January , aiding sustainable energy goals and resource efficiency. Cyprus new energy storage project biddingAn environmental impact assessment (EIA) has been submitted for a renewable energy project combining solar PV and energy storage on the Mediterranean island nation of Cyprus. Cyprus Sets Out Plans for Hybrid Energy Storage Cyprus has announced plans this week for the integration of its energy storage systems (ESS) with renewable energy sources. This comes
