

## successful bid price of standalone energy storage project in Bulgaria 202

How many project proposals were submitted in Bulgaria's energy storage procurement procedure? A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh. How many renewables & energy storage projects have been supported in Bulgaria? It follows the results from a similar scheme in Bulgaria which provided financial support for renewables and energy storage projects, which saw some 3,095MW of renewables and 1,176MWh of projects win support, announced last month. What is the largest energy storage project in Bulgaria? A 25MW/55MWh project from IPP Renalfa and BESS supplier Hithium, the largest in Bulgaria. Image: Renalfa IPP. The deadline has now passed for Bulgaria's EU-backed support scheme for standalone energy storage, and the bids submitted amount to four times the available capital available. How much money does the NRRP provide for energy projects in Bulgaria? Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding. Why is energy storage growing in Bulgaria? Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability. Will battery projects improve energy security in Bulgaria? The successful implementation of battery projects will significantly contribute to the security of the energy system in Bulgaria and the region." The scheme was opened by the Ministry in May, and approved by the EU last month. Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The final decision, announced on April 17, , concludes a competitive selection process that began with 151 proposals in Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The final decision, announced on April 17, , concludes a competitive selection process that began with 151 proposals in Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded procurement exercise named RESTORE. The selected projects will deliver a total usable energy storage capacity of 9,712.89 MWh, the Ministry of Energy said on April . The deadline has now passed for Bulgaria's EU-backed support scheme for standalone energy storage, and the bids submitted amount to four times the available capital available. Some 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (EUR590 . The Ministry of Energy of Bulgaria has received 151 project proposals worth nearly BGN 5 billion (\$2.7 billion), more than four times the available funding. A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking . With nearly 10 GWh of standalone energy storage capacity awarded--more than triple the initial target--the country is making significant headway in reinforcing grid stability and accelerating the integration of renewables. Under the RESTORE

initiative, launched through Bulgaria's National Recovery Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The final decision, announced on April 17, , concludes a competitive selection process that began with 151 proposals in August . Developers have submitted proposals for grants in Bulgaria for standalone energy storage units for 4.3 times more than the EUR 581 million budget. Funding isn't secure, though, as the European Commission blocked a tranche from the European Union's Recovery and Resilience Fund. By the application Bulgarian tender awards nearly 10 GWh of energy Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion levs (\$675 million) under its EU-funded procurement exercise named RESTORE. Bulgaria 3GWh energy storage tender 4x oversubscribedSome 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (EUR590 million/US\$540 million) for up to 50% of the construction costs of 3.1GWh of standalone energy Bulgaria's 3 GWh standalone energy storage tender A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy Energy Storage in Bulgaria Surges with 9.7 GWh Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion Bulgaria Commits EUR600 Million to Nearly 10GWh in Energy Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. Bulgaria's call for standalone energy storage is 4.3 Developers have submitted proposals for grants in Bulgaria for standalone energy storage units for 4.3 times more than the EUR 581 million budget. Funding isn't secure, though, as the European Commission blocked a Bulgaria Auctions Off 3GW Renewable Energy and 1.17GW This auction is a crucial part of Bulgaria's National Recovery and Sustainability Plan, aiming to support economic and social recovery post-pandemic while promoting the Bulgaria Unveils the Largest Battery Storage System Bulgaria has officially inaugurated the largest battery energy storage system (BESS) in the Balkans, boasting a capacity of 496.2 MWh. This groundbreaking facility, located in Lovech, is set to enhance the stability of the Bulgaria 3GWh energy storage tender 4x oversubscribedA 25MW/55MWh project from IPP Renalfa and BESS supplier Hithium, the largest in Bulgaria. Image: Renalfa IPP. The deadline has now passed for Bulgaria's EU-backed support scheme for standalone energy EU's Largest BESS Project Now Online in BulgariaA battery energy storage system (BESS) described as the largest deployed to date in the European Union (EU) has been commissioned in Bulgaria. Officials with the country's Ministry of Energy said Bulgarian tender awards nearly 10 GWh of energy Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount. Bulgaria launches call for grants for standalone energy storage unitsBulgaria prepared EUR 589 million in grants for standalone energy storage projects. The
